## DESCRIPTION

TITAN MOUNTAIN AIR-LINGER is an air freshener that provides lingering deodorising effect thanks to a revolutionary slow release agent. It works best when sprayed onto curtains or carpets and helps maintain the air in the room fresh for an extended time.

## DIRECTIONS FOR USE

Depending on the contamination of the area a usual dilution would be 1:5 (165mL to 1 litre of water) or 82.5mL to a Jasol Spray Bottle. For best results spray onto porous surfaces such as curtains, carpet and unpainted brick. Leave the room as soon as possible after spraying to avoid the concentrated release of the air freshener.

Consult your Jasol representative for further information.
